

THE INAUGURAL

# Energy Storage Technologies & Applications Conference

UNIVERSITY OF CALIFORNIA, RIVERSIDE

**April 13, 2018**  
**8:00 a.m. - 5:00 p.m.**

 Bourns Technology Center  
1200 Columbia Ave., Riverside, CA 92507

*Addressing Today's Energy Storage Demands*

This conference is a forum to researchers, regulators, technology developers, community leaders, and utility experts to share the latest advances and future opportunities for energy storage and applications in power systems.

It includes invited and contributed presentations, panel discussions, industry showcases, and networking reception.

It is focused on two pillars of energy storage technologies as well as system integration, operation, and business models for energy storage across a variety of applications.

It includes a poster competition for graduate and undergraduate students to present their research on the focus topics of the conference.

Hosted by:

UNIVERSITY OF CALIFORNIA  
**UCRIVERSIDE**

Marlan and Rosemary Bourns  
College of Engineering
