Subject: Vacancy at the California Air Resources Board

Greetings!

I am a hiring manager at the California Air Resources Board (CARB) and am writing to let you know about a vacancy that is available in my group, the Transportation Analysis Section. The last date that we can receive applications for this position is by October 25th. A short description of this position is provided below for more information Please see announcement at the link provided below.

The Transportation Analysis section (TAS) within Transportation Planning Branch is seeking a highly motivated individual to support evaluation of land use and transportation strategies to reduce greenhouse gas emissions related to California's Senate Bill 375 Program. The incumbent will work with local and regional planning agencies throughout California to develop conformity budgets and to encourage adoption of aggressive plans and policies that reduce criteria pollutants and GHG emissions from vehicle travel. The incumbent will also be responsible for developing new quantification methodologies for assessing the impact of various innovative transportation policies/ technologies on emissions. Excellent analytical, written, verbal communication, and interpersonal relationship skills are essential to be successful in this position.
